SUMMARY

Informatics student at Universitas AMIKOM Yogyakarta passionate about Frontend and Full Stack Web Development. Skilled in developing responsive and modern web applications using React, Next.js, TypeScript, Tailwind CSS, Prisma, and PostgreSQL. Strong interest in writing clean, maintainable code and continuously improving technical skills. Currently seeking a Frontend or Full Stack Developer Internship where I can contribute to real-world projects while expanding my experience as a software engineer.

EDUCATION

Universitas Amikom Yogyakarta | Informatics Engineering | GPA: 3.49/4.00 (August 2022 - July 2026)

EXPERIENCE

InternHub – Internship Management System | Personal Project (2026 – Present)

- Developed a responsive internship management web application using Next.js and TypeScript.
- Built reusable UI components following component-based architecture.
- Designed responsive layouts optimized for desktop and mobile devices using Tailwind CSS.
- Integrated Prisma ORM with PostgreSQL for database management.
- Implemented multilingual support (English and Indonesian) and dark mode.
- Deployed the application using Vercel and managed the source code with Git and GitHub.

Joglo Dhepis | Company Profile Website (2025)

- Designed and developed a responsive company profile website.
- Built modern landing page sections with smooth scrolling navigation.
- Optimized website performance and responsive layouts.
- Deployed the website using Vercel.
- Maintained the project using Git and GitHub.

SKILLS

- **Core Technical Skills:**
Frontend Development, Full Stack Web Development, Responsive Web Development, Component-Based Architecture, RESTful API Integration, Database Management.
- **Frameworks & Libraries:**
Next.js, React.js, Tailwind CSS, Prisma ORM.
- **Programming & Databases:**
TypeScript, JavaScript (ES6+), HTML5, CSS3, PostgreSQL, MySQL, Git, GitHub, Vercel.
- **Engineering Concepts:**
Responsive Web Design, RESTful API Integration, Clean Code Principles, Component Reusability, Version Control, Basic System Design.
- **Soft Skills:**
Problem-Solving, Team Collaboration, Effective Communication, Adaptability, Continuous Learning.
